CAREER OBJECTIVE

Full-Stack Developer with hands-on experience building AI-integrated real-time web applications using WebRTC and REST APIs. Developed and deployed 2 production projects including an AI video conferencing platform. Seeking SDE internship roles to contribute to scalable backend systems and modern frontend architecture.

EDUCATION

B. Tech in CSE, REVA University CGPA: 7.6 / 10 Yelahanka, Bengaluru	2023-2027
PUC / State Board Percentage: 86% Guru Nanak Dev University, Bidar	2021-2023
10th / CBSE Percentage: 75% Air Force School, Bidar	2020-2021

TECHNICAL SKILLS

Programming Languages: Python, C, Java
Web Technologies: HTML, CSS, JavaScript, Node.js, Streamlit
Databases: MySQL, SQLite
Technologies: WebRTC, REST APIs, Groq SDK
Tools and Platforms: Git, GitHub, VS Code
Soft Skills: Problem Solving, Communication, Teamwork, Time Management, Quick Learning

ACADEMIC PROJECTS

MeetFlow-AI — AI-Powered Video Conferencing Platform	Jan 2026 — Apr 2026
- Developed a real-time video conferencing platform using React, Node.js, WebRTC, Socket.io, and MongoDB, enabling seamless peer-to-peer communication and meeting collaboration. - Integrated AI-powered live transcription via Groq SDK, achieving <2s latency and reducing manual note-taking effort by ~70% across test sessions. - Built secure meeting rooms and real-time messaging supporting up to 20 concurrent participants with <200ms message delivery via Socket.io. - Project Link- https://meetflowai.netlify.app/	
VR Escape Room Game (Web-Based 3D Horror)	May 2025 — Jul 2025
- Built a browser-based 3D escape room game using Three.js, WebGL, and JavaScript featuring 3 levels, each with a unique room-analysis puzzle and a 3-minute countdown timer mechanic. - Created an innovative real time lighting engine leveraging WebGL shaders, which enabled stunning illumination effects; the project received positive feedback from 95% of focus group testers in user experience evaluations. - Designed 3 distinct puzzle environments with clue-based room analysis gameplay, cinematic cutscenes, and timed game-over logic — play-tested with peers for feedback and iteration. - Project Link-https://vr-escape-room-rgbj.vercel.app/	

CERTIFICATIONS

- React.js — Meta Front-End Developer Certificate, Coursera, 2026
- Agile Explorer — IBM SkillsBuild, Mar 2026
- Introduction to Cryptography, Simplilearn, Apr 2026

EXTRACURRICULAR ACTIVITIES

- HackVyuha 2025 — Built an AI-powered Real-Time Productivity Detection System using Python and Computer Vision, competing among 100+ teams at REVA University.
- Presenter, Project Exhibition, REVA University Tech Fest 2025 — Showcased MeetFlow-AI to faculty and industry judges.
- Member, Coding Club / Technical Society, REVA University — Attended workshops on system design, DSA, and web development.
- Languages:** English (Fluent), Kannada (Native), Hindi (Fluent)
- Interests:** Competitive Programming, Reading fiction, Sports, Exploring Emerging Technologies
